GET BEHIND THE SCENES!

Behind the Scenes is an hour long, guided tour for small groups of people. A knowledgeable interpreter will take you behind the staff-only doors of the Aquarium to several points of interest. You will have the opportunity to feed some animals, learn about our care protocol and see how we keep the animals healthy, including the huge water systems that filter and recirculate our water. Some of our Aquarium animals are only found in our behind-the-scenes tanks! You will also learn more about what the different departments at the Huntsman Marine Science Centre do, including research and education. The animals themselves are always changing behind-the-scenes based on what is going on in the Aquarium, so there is always something unique to see and learn!

GROUP TOURS… ANYTIME!

Did you know the Aquarium is never really closed? We are still full of animals during the October-May period just waiting to be seen by you and your group! Why not plan your visit to coincide with a seal feeding? Standard group rate discounts apply to your group of 10 or more, so book today!

TIDAL TREK: BEACH CRAB GRAB

Discover, learn and explore while we search for invasive species in the tide

DEBRIS FREE FUNDY

The DebrisFreeFundy project is working towards keeping marine debris out of the Bay of Fundy. We work with local businesses to reduce single-use plastics and promote environmentally friendly business operations. Participation acknowledgement decals help to identify supporting partners — keep your eyes open in Charlotte County for our logo!

In Southwestern New Brunswick the fishing industry is essential to our economy. Every season ropes are changed on fishing gear, and that rope has nowhere to go! We are working with fishermen, government, harbour authorities and other not-for-profits to recycle and repurpose this rope. Shoreline cleanups are an essential component of our DebrisFreeFundy project. Throughout the year the Huntsman Marine Science Centre partners with industry, not-for-profit organizations, businessmen and the community to keep our shoreline clean. On SATURDAY JUNE 8, 2019 join us at the Fundy Discovery Aquarium to celebrate WORLD OCEANS DAY! We will be hosting cleanups throughout St. Andrews, along with other fun ocean-themed activities at the Aquarium. Register early to get a free pass to the Aquarium to be used on any day of the 2019 season and a special edition #DebrisFreeFundy long-sleeve shirt (limited quantities available).

Explore. Learn. Discover.
FUNDY DISCOVERY AQUARIUM
The Aquarium has more than 40 species from the Bay of Fundy that occupy 12 habitat exhibits and features 10 focused displays on the history, economy and ecology of the Bay of Fundy. Enjoy a Bay of Fundy journey that begins with a 25 ft tall water display and gigantic touch tanks. From the outdoor observation deck to the underwater viewing windows, there is so much to see. Take a stroll around the Aquarium and purchase feed and vitamins to maintain healthy fish. We also offer adult and family educational experiences too. Your admissions, memberships and donations to the Fundy Discovery Aquarium help us continue to inspire people to discover the importance of our oceans and become stewards for our marine environments.

Please consider supporting the Huntsman’s education and outreach activities with a tax deductible charitable contribution. Your donation will make an ocean of difference. Visit huntsmanmarine.ca/donate, contact us at huntsman@huntsmanmarine.ca or call 506.529.1200, or visit our website for more information.

ABOUT THE HUNTSMAN
The Huntsman Marine Science Centre (the Huntsman) is a registered, not-for-profit research and science-based teaching institution in St. Andrews, New Brunswick. The Huntsman was established in 1969 by a consortium of universities, government departments and private sector interests. Now, in 2019, we proudly celebrate 50 years of active stewardship, engaging thousands of all ages in the marine environment, eco-systems, animals and resources.

The Education programs at the Huntsman are knowledge-based activities that influence the development of well-informed and qualified personnel in the marine sciences and ocean industry sector of the Canadian economy. Ours hands-on, science-based programs reach over 50,000 students, from elementary schools to university levels. We also offer adult and family educational experiences.

For more information on all of these programs please visit www.huntsmanmarine.ca or phone 506-529-1200.

DAILY PRESENTATIONS
